Any aggressive, intimidating or destructive activity that damages or destroys another person's quality of life.

Anti Social Behaviour definition is the behaviour by an individual or group that results in:

- another party feeling personally threatened
- creates a public nuisance, or
- has a detrimental impact upon the environment and thereby has a detrimental effect upon the quality of life of an individual or the community as a whole.

Street problems which can include...

- Begging & panhandling
- Noise

Intimidation

Harassment

- Sex trade workers
- Dealing and buying drugs in public
- Loitering inside or outside your business
- Blocking or intercepting customers trying to enter your business

Environmental Anti-social behaviour includes:

Graffiti

Littering

How anti-social behaviour affects us: Anti social behaviour impacts negatively on all people, young and old, in all communities. It reduces the quality of life for all residents. Graffiti doesn't look good and has a huge impact on our communities, not to mention the costs of cleaning it up.

Why does Anti-Social Behaviour happen?

There are many factors that could cause the risk of anti-social behaviour happening.

What you can do:

<u>Do not</u> confront or say anything to a person demonstrating anti social behaviour. Any concerns, or other community safety issues, please do not hesitate to contact RM RCMP at 604-463-6251, or in case of an emergency call 911.
